PURPOSE
To outline the process by which RDC monitors and continuously improves its externally accredited or approved credit programs. Schools use this process to inform continuous program improvement, and operational and budget plans.

PROCEDURE

1. Upon approval from the Dean and VPA and in consultation with/notification of the QIPC Co-Chair(s), programs that are externally approved or accredited complete a modified program review procedure in place of a QIPR. These are completed when the program undergoes a regularly scheduled accreditation/external approval process. The process allows for flexibility to accommodate specific program circumstances.

2. If curriculum review is not completed as part of the accreditation/external approval process, the program completes a curriculum review at minimum every seven (7) years.

3. As part of, or in response to, the accreditation/external approval process, the Associate Dean (AD) develops an Action Plan in consultation with School Council and Dean.

4. The Associate Dean presents the Action Plan to QIPC.

5. After the presentation, QIPC sends a confirmation memo to the VPA indicating that the review is complete and posts the Action Plan to the Loop.

6. Schools use this process to inform continuous program improvement, and operational and budget plans.
7. To provide the flexibility needed for continuous program improvement, the Associate Dean may request alterations to the process from the QIPC Co-Chairs.
