

TITLE: **RESEARCH INVOLVING ANIMALS**
(Relates to EL-9: Ethical Research)

EFFECTIVE DATE: July 1, 2006

PURPOSE:

Research involving animals is generally considered basic research. As such, it is not within the College's applied research mandate and is excluded from this policy. Should research involving animals be undertaken in the future: all funding Councils or granting agencies will be advised promptly, and the College will develop and implement a policy and procedures for conducting ethics review in a timeframe to which all Councils or granting agencies agree.
